

DHI-VTO2111D-WP

1MP Post de exterior WIRELESS

Caracteristici

- Camera HD CMOS
- Unghi larg de vizibilitate
- Vedere pe timpul noptii
- Interfon wireless scu aplicatie mobila
- Montaj aparent

Specificatii tehnice

Model	DHI-VTO2111D-WP
-------	-----------------

Sistem

Procesor	Embedded Micro Processor
Sistem de operare	Embedded LINUX OS

Video

Compresie video	H.264
Senzor de imagine	1/4" 1MP CMOS
Lentila	2.2mm
Unghi	D:125° H:105°
Zi/Noapte	ICR

Audio

Compresie audio	G.711
Intrare audio	Omnidirectional Mic
Iesire audio	Built-in Speaker
Comunicare bidirectionala	Suporta comunicare bi-directionala simultan

Mode de operare

Tastatura	Un singur buton mecanic
Cititor	Mifare
Distanta a persoanei	1m

Interfata

Controlul usii	2 Moduri de control - 1 releu pentru yala principala si 1 extender pentru modul acces
Alarm IN	2(1canal buton deblocare, 1canal feedback)
RS485	1

Retea

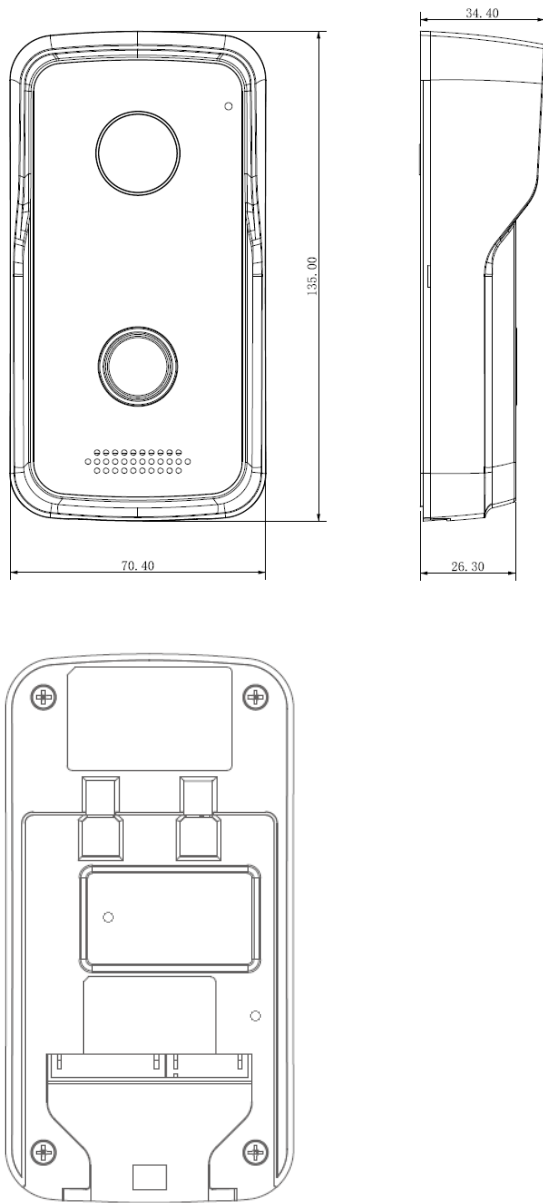

Wi-Fi	IEEE802.11b/g
-------	---------------

Ethernet	10M/100Mbps Self-adaptive
Protocol retea	TCP/IP

General

Protectie	IP65
Tamper	1
Card memorie	Micro SD, Max 32G
Instalare	Aparent
Material	Plastic
Alimentare	DC 12V,PoE(802.3af)
Consum	Standby ≤1W, Work ≤10W
Temperatura functionare	-30°C~+60°C
Umiditate relativa	10%~90%RH
Dimensiuni	135mm×70.4mm×34.4mm
Greutate	0.4Kg

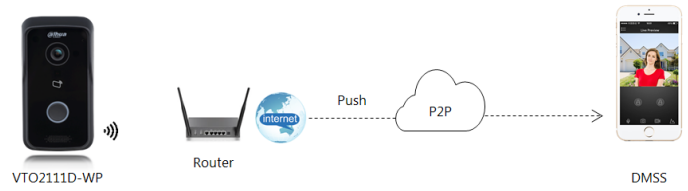

Dimensiuni

Aplicatie

1 – Videointerfon SMART

- Comunica video/audio prin aplicatia de mobil fara post de interior.

2 – Videointerfon clasic

- Comunica video/audio pe monitorul de interior
- IPC Supraveghere
- Integreare alarma
- Comunica video/audio prin aplicatia de mobil
